Debugger

main.aspx jquery.tmpl.min.js new\_AjaxPriceInvoice notificationlist.js

```
1 function readonlyprice() {
2   var id=Xrm.Page.getAttribute("invoiceid").getValue();
3   var query="http://[redacted]xrm/services/2011/OrganizationData.svc/InvoiceSet?$select=new
4     $.ajax({
5       url: query,
6       data: {
7         format: 'json'
8       },
9       type: 'GET',
10      dataType: 'json',
11      error: function () {
12        alert(boError);
13      },
14      success: function (data) {
15        if(data.d.results[0].new_ContractContractor==true)
16          Xrm.Page.ui.controls.get("quantity").setDisabled(true);
17      }
18    });
19 }
```
